

Investigation Date: August 6, 2026

Analyst: Sepehr Naji

Incident Type: Phishing Email Investigation

Executive Summary

During the initial triage of the email, several indicators suggested that this message is likely a phishing attempt. The email impersonates Banco Bradesco Livelo and uses urgency by claiming that reward points will expire today. The sender information, authentication results, and email infrastructure contain multiple suspicious indicators that warrant further investigation.

Risk Level : High

Email Content Analysis

Display Name: Banco Bradesco Livelo

Actual Email: banco.bradesco@atendimento.com.br

CLIENTE PRIME - BRADESCO LIVELO: Seu cartão tem 92.990 pontos LIVELO expirando hoje!

Observation:

The display name impersonates Banco Bradesco, while the actual sending infrastructure contains additional suspicious indicators identified during header analysis. The attacker attempts to create urgency by claiming reward points expire today, encouraging the victim to act immediately without verifying the email.

Final Verdict

Based on the email header analysis, authentication failures, sender reputation, and social engineering techniques, this email is assessed as a phishing attempt. Users should not interact with the embedded links or reply to the sender.
